**REPLACEMENT AMENDMENT**

Applicants submitted an Amendment on March 26, 2003 (the "Amendment") responsive to the Office action mailed January 16, 2003. Applicants understand that the Amendment has been accepted by the USPTO (the "Office") for the purposes of response deadlines and that the Application continues to pend before the Office without additional fees or petitions. Nonetheless, Applicants also understand that certain informalities in such Amendment (e.g., with regard to new Office amendment procedures) may cause difficulties in processing the Amendment. In the interest of aiding the Office in processing the substantive aspects of the Amendment, and responsive to a telephonic request from Office representative Juliet McMillan on June 19, 2003, Applicants hereby provide this Replacement Amendment, which is identical in substance to the previously filed and accepted Amendment, but which now also includes a complete claim listing (e.g., including unamended claims with proper labels) and all required page breaks.

JUN.23.2003 2:41PM CORPLAW 512 996 6853

NO.911 P.3

This Amendment is submitted in response to the Office Action mailed January 16, 2003 in the above-identified patent application.

Please amend the application, without prejudice, as follows:

AMENDMENT

TECHNOLOGY CENTER 2800

This Amendment is submitted in response to the Office Action mailed January 16, 2003 in the above-identified patent application.

Please amend the application, without prejudice, as follows:

In the Drawings:

Applicants propose adding new FIG. 8, as shown in red on the attached drawing sheet.

In the Specification:

Page 3, amend paragraphs [0014] and [0015] and add new paragraph [0015.1] as follows.

[0014] FIG. 6 is an enlarged top plan view of a first pattern of
